Learn how you may be able to help.

Your Experience Can Help Others

How Can I Help?

You can help us gather evidence on how medical cannabis might impact health-related quality of life & wellness by completing a simple online questionnaire.

What Happens In The Study?

You will be asked to complete online health related questionnaires:

- at enrollment
- at 6-month follow-up
- at 12-month follow-up

This information will be used to describe how you respond to medical cannabis and how it affects your overall health-related quality of life and wellness.

How Do I Enroll Into The Study?

To participate, you must review and sign an electronic Consent Form provided by your health care professional. You can complete this form at any Appletree Medical Centre or take it home to read and complete at your convenience. Once you provide your consent, you will be enrolled into the study.

Your Participation Is Voluntary

You may leave the study at any time, even after enrollment. Your decision to participate will not affect your access to medical treatment or the quality of care you receive in any way.

Confidentiality

All your data will be made anonymous and kept confidential during and after study completion.

Interested?

If you are interested to know more about the study, please talk to an Appletree staff or physician. Additionally, you may also contact:

Ottawa Region: **(613) 482-0118**

GTA Region: **(647) 722-2370**
